

AARAV MENON

Senior AI / Machine Learning Engineer

Bangalore, Karnataka, India | +91 98450 11223 | aarav.menon.ml@example.com | linkedin.com/in/aarav-menon-ai-example

PROFESSIONAL SUMMARY

Senior AI/ML Engineer with 4+ years of hands-on industry experience building, optimizing, and deploying production machine learning models and end-to-end data pipelines. Specialized in deep learning with PyTorch, distributed SQL analytics, data preprocessing, and containerized REST API microservices on cloud infrastructure.

TECHNICAL SKILLS

Programming & Core: Python (Advanced), SQL, C++, Bash

ML & Deep Learning: PyTorch, TensorFlow, Scikit-learn, XGBoost, Model Evaluation, Cross-Validation

Data Processing: Pandas, NumPy, Feature Engineering, Data Preprocessing, ETL Pipelines

Deployment & DevOps: FastAPI, Flask, Docker, REST APIs, Git, AWS (SageMaker, S3, EC2), CI/CD

WORK EXPERIENCE

Senior Machine Learning Engineer — Nexus AI Systems Ltd

July 2022 – Present (2+ yrs) | Bangalore, India

- Architected and deployed deep learning classification and regression pipelines using Python, PyTorch, and Scikit-learn, improving prediction accuracy by 28%.
- Engineered automated data preprocessing and feature extraction modules processing 5M+ daily records using Pandas and NumPy.
- Optimized complex PostgreSQL and SQL queries, reducing database latency by 45% for high-throughput model inference endpoints.
- Built and containerized scalable REST APIs with FastAPI and Docker, maintaining 99.9% uptime on AWS cloud infrastructure.
- Conducted rigorous model evaluation using ROC-AUC, F1-score, and SHAP values for explainable AI governance; managed Git version control.

Machine Learning Engineer — Cognitive Solutions Pvt Ltd

August 2020 – June 2022 (2 yrs) | Hyderabad, India

- Developed predictive analytics pipelines using Python, Pandas, NumPy, and Scikit-learn for enterprise customer churn modeling.
- Created database schemas and automated SQL ETL scripts to ingest unstructured operational data.
- Collaborated on REST API integration and Git CI/CD deployment workflows.

PROJECTS

Autonomous Customer Retention Engine: Built an end-to-end ML pipeline with PyTorch and Scikit-learn deployed as a Dockerized FastAPI REST service on AWS.

High-Throughput SQL Feature Store: Designed an automated feature engineering pipeline with Pandas, NumPy, and PostgreSQL managing 100+ model variables.

EDUCATION

B.Tech in Computer Science & Engineering — National Institute of Technology (NIT), Surathkal

Graduation: 2020 | Karnataka, India

- First Class with Distinction. Specialization in Intelligent Systems and Distributed Computing.

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty** — Amazon Web Services (2023)
- Deep Learning Specialization (PyTorch & TensorFlow)** — DeepLearning.AI (2021)
