

ANANYA IYER

Software Engineer — ML & Data Specialist

Chennai, Tamil Nadu, India | +91 98200 44556 | ananya.iyer.tech@example.com | linkedin.com/in/ananya-iyer-tech-example

PROFESSIONAL SUMMARY

Software Engineer with 2.5 years of industry experience transitioning into Machine Learning. Strong background in Python software development, SQL databases, data preprocessing with Pandas/NumPy, and foundational ML with Scikit-learn. Adept with Git collaboration and REST API development.

TECHNICAL SKILLS

- Programming:** Python, SQL, JavaScript, HTML/CSS
Machine Learning: Scikit-learn, Linear Regression, Decision Trees, Model Evaluation
Data Analysis: Pandas, NumPy, Data Preprocessing, Data Cleaning
Web & Tools: REST APIs, FastAPI, Git, GitHub, MySQL, PostgreSQL

WORK EXPERIENCE

Software Development Engineer — Photon Interactive Solutions

April 2022 – Present (2.5 yrs) | Chennai, India

- Developed Python backend microservices and REST APIs integrated with relational PostgreSQL databases.
- Implemented machine learning modules using Python and Scikit-learn for automated text classification and sentiment tagging.
- Performed data preprocessing, schema validation, and data cleaning routines using Pandas and NumPy.
- Collaborated within an Agile engineering team using Git for branch management, code reviews, and version control.
- Measured model evaluation metrics including accuracy and recall during weekly quality verification cycles.

PROJECTS

Automated Ticket Classifier: Built a Scikit-learn classification pipeline with Python and Pandas to categorize inbound IT helpdesk tickets.

EDUCATION

B.E. in Computer Science and Engineering — Anna University, College of Engineering Guindy

Graduation: 2022 | Chennai, India

- Graduated with Distinction. Coursework in Data Structures, Algorithms, DBMS, and Machine Learning.

CERTIFICATIONS

- Machine Learning Specialization with Python** — Stanford Online / Coursera (2023)
