

ARJUN REDDY

Data Analyst & Python Developer

Hyderabad, Telangana, India | +91 99490 55667 | arjun.reddy.data@example.com | linkedin.com/in/arjun-reddy-data-example

PROFESSIONAL SUMMARY

Data Analyst with 2 years of experience specializing in Python data wrangling, advanced SQL database querying, and reporting. Proficient in Pandas and NumPy for data preprocessing, with baseline knowledge of Scikit-learn and model evaluation techniques.

TECHNICAL SKILLS

Core Skills: Python, SQL, PostgreSQL, MySQL

Data Processing: Pandas, NumPy, Data Preprocessing, Data Cleaning, Data Modeling

Basic ML: Scikit-learn (Basic regression and clustering), Model Evaluation

Tools & BI: Git, PowerBI, Tableau, Excel, Jupyter Notebooks

WORK EXPERIENCE

Data Analyst — Quantiva Analytics Pvt Ltd

July 2022 – Present (2 yrs) | Hyderabad, India

- Authored complex SQL queries, window functions, and CTEs to extract business metrics from relational databases.
- Engineered data preprocessing and transformation pipelines using Python, Pandas, and NumPy.
- Built baseline regression models using Scikit-learn to forecast monthly revenue trends.
- Maintained analytics scripts and SQL schemas in Git repositories with standard branching workflows.
- Conducted exploratory data analysis and validated data quality across multi-table databases.

PROJECTS

Financial Metrics Transformation Pipeline: Automated monthly financial reconciliation using Python, Pandas, and SQL queries with Git versioning.

EDUCATION

B.Tech in Information Technology — Jawaharlal Nehru Technological University (JNTU)

Graduation: 2022 | Hyderabad, India

- Focus on Database Management Systems, Statistics, and Python Programming.

CERTIFICATIONS

- **SQL for Data Science Professional Certificate** — Coursera / UC Davis (2022)
