

PRIYA NAIR

Machine Learning Engineer

Kochi, Kerala, India | +91 97401 22334 | priya.nair.eng@example.com | linkedin.com/in/priya-nair-ml-example

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3 years of experience developing machine learning models and data preprocessing pipelines in Python. Highly proficient in TensorFlow, Scikit-learn, SQL database queries, and containerized REST API model deployment using Git version control.

TECHNICAL SKILLS

Core Skills: Python, SQL, R, Linux Shell Scripting

Machine Learning: TensorFlow, Keras, Scikit-learn, Model Evaluation, Hyperparameter Tuning

Data Analysis: Pandas, NumPy, Data Preprocessing, Data Cleaning, Matplotlib, Seaborn

Deployment & Tools: REST APIs, FastAPI, Docker, Git, GitHub, MySQL, PostgreSQL

WORK EXPERIENCE

Machine Learning Engineer — Synthetix Data Labs

September 2021 – Present (3 yrs) | Kochi, India

- Trained and evaluated deep neural networks using Python and TensorFlow for multi-class image classification and structured tabular prediction.
- Constructed robust data preprocessing pipelines with Pandas and NumPy, handling missing data imputation and categorical encoding.
- Wrote optimized SQL queries and stored procedures across relational databases to feed training datasets to ML models.
- Built lightweight REST API services with FastAPI to serve predictions with sub-80ms response times; tracked codebase via Git.
- Implemented comprehensive model evaluation metrics including precision-recall curves, confusion matrices, and cross-validation.

PROJECTS

Real-Time Fraud Detection System: Implemented a TensorFlow anomaly detection model integrated with a PostgreSQL relational database and FastAPI REST endpoints.

Predictive Health Diagnostics Pipeline: Developed an automated data cleaning and Scikit-learn model evaluation suite versioned with Git.

EDUCATION

B.Tech in Artificial Intelligence & Data Science — Government Engineering College, Thrissur

Graduation: 2021 | Kerala, India

- CGPA: 8.9/10. Dean's Honors List for Academic Excellence in Machine Learning.

CERTIFICATIONS

- TensorFlow Developer Certificate** — Google Cloud (2022)
- Applied Data Science with Python** — Coursera (2021)
