

RESUMEFIT DEMO CANDIDATES SUITE

10 Standardized Demo Resumes for Job Screening & Deterministic Ranking Verification

This guide outlines the 10 fictional candidate resumes generated for testing ResumeFit's deterministic parsing, evidence grounding, and fit scoring engine against the **AI / Machine Learning Engineer** target job opening.

Target Job Requirements: Python, Machine Learning, SQL, Pandas, NumPy, Scikit-learn, PyTorch/TensorFlow, Data Preprocessing, Model Evaluation, REST APIs, Git, and 2+ years experience.

Candidate File & Name	Intended Match Tier	Main Strengths	Main Gaps / Gating Factor
01_Aarav_Menon Senior AI/ML Engineer	VERY STRONG (90–100%)	4 yrs exp, PyTorch, Python, SQL, Pandas, NumPy, Scikit-learn, REST APIs, Docker, AWS, Git	None (Fully qualified ideal profile)
02_Priya_Nair ML Engineer	STRONG MATCH (85–95%)	3 yrs exp, TensorFlow, Python, Scikit-learn, SQL, Pandas, NumPy, FastAPI REST APIs, Git	Minor (TensorFlow rather than PyTorch focus)
03_Rohan_Kapoor Data Scientist	STRONG MATCH (80–90%)	3 yrs exp, Scikit-learn, ML, SQL, Pandas, NumPy, Model Evaluation, M.Tech Data Science	Lighter on deep learning framework specifics
04_Ananya_Iyer Software Engineer → ML	GOOD MATCH (70–85%)	2.5 yrs exp, Python, SQL, Scikit-learn, Pandas, NumPy, REST APIs, Git	Less dedicated deep learning production history
05_Arjun_Reddy Data Analyst	MODERATE MATCH (60–75%)	2 yrs exp, Strong Python, SQL, Pandas, NumPy data preprocessing	Lacks deep learning and advanced model deployment
06_Maya_Sharma Junior ML Engineer	NEEDS REVIEW (50–65%)	Python, Scikit-learn, Pandas, NumPy, ML fundamentals	1.5 yrs exp (below 2+ years requirement), basic SQL
07_Karthik_Varma Backend Developer	PARTIAL MATCH (40–55%)	3 yrs exp, Advanced Python, SQL, REST APIs, Git, PostgreSQL	No Machine Learning / Scikit-learn / Model Eval
08_Nisha_Patel Frontend Developer	LOW MATCH (30–45%)	3 yrs exp, REST APIs, Git, Basic Python/SQL syntax	Core stack is React/TypeScript; no ML experience
09_Vikram_Singh Java Developer	VERY LOW MATCH (15–35%)	2 yrs exp, Enterprise SQL, REST APIs, Git	Java/Spring focused; zero Python or ML background
10_Sneha_Krishnan Fresh Graduate CS	POOR MATCH (0–25%)	Basic programming concepts, academic CS degree	0 yrs prof experience; lacks ML, SQL, and Python stack

Important Note: These target tiers were used to design realistic, distinct resumes. The actual fit scores, rankings, and evidence citations are dynamically computed by the ResumeFit backend engine.
